

RYM DYNAMICS

Capability Statement

Performance-Driven Components. Delivered with Confidence.

WHO WE ARE

RYM Dynamics was founded to bridge the gap between government buyers and reliable industrial sourcing. We tap an established supplier network to locate standard and hard-to-find parts across industries, delivering the right components, at the right time, with the right support. We serve government agencies and public and privately owned organizations across aerospace, electronics, and industrial supply chains.

CORE COMPETENCIES

- Sourcing of standard and hard-to-find parts across aerospace, electronics, and industrial supply chains
- Small-business agility with responsive, hands-on customer service
- Government and commercial procurement support, including RFQ response and Basic Ordering Agreements (BOAs)
- Electronic parts, components, and peripheral equipment (computer, communications, and A/V hardware)
- Industrial machinery, equipment, and MRO supplies
- Transportation and aerospace equipment and supplies, commercial and military
- Electrical apparatus, equipment, and wiring supplies
- Strong focus on product compliance, OEM traceability, country-of-origin documentation, and solicitation requirements

DIFFERENTIATORS

- Active partnerships with TD SYNEX Partner, D&H, DigiKey, TTI... extending access to a broad electronics and IT distribution catalog
- Actively expanding OEM/authorized-reseller relationships to widen sourcing reach and pricing
- Registered State of Illinois vendor with active Bid Buy Illinois participation
- General Liability, Auto Liability, and Workers' Compensation coverage in place, meeting standard state contract insurance requirements

Industries & Customers Served

- Federal agencies • State and local government • Public safety • Education • Healthcare • Transportation • Facilities and public works • Commercial and institutional buyers
